LIGHT UP YOUR VIBES WITH STYLE

ORION D

ORION D

Se il design “è un modo ingenuo per sentirsi un po' più vicini al mistero della bellezza”, questa definizione racchiude tutto il concept della nostra collezione ORION D.
Possiamo così, anche noi, lasciarci avvolgere dalla forza della bellezza, avendo conferma che, nel nostro lavoro, fare cose belle e farle bene è un principio fondamentale, prima ancora di essere una scelta imprenditoriale o una strategia di mercato.
Le linee architettoniche della collezione ORION D di fatto ne caratterizzano la sua essenza, il fascio luminoso studiato per racchiudere emozione è composto da un'alternanza di luce e ombra.
Il paletto ORION D è in grado di rispondere, con garbo, alla funzione d’uso, sia in spazi aperti, aree pedonali, piste ciclabili e aree residenziali, raccontando con stile nuove emozioni di luce.

If design “is a naive way to feel a little closer to the mystery of beauty”, this definition includes the whole concept of our ORION D collection.
In this way, we too can let ourselves be enveloped by the power of beauty too, having confirm that, in our job, doing beautiful things and doing them well, basic principle even before being an entrepreneurial choice or a market strategy.
The architectural and rigorous lines of the ORION D collection actually characterize its essence, the light beam designed to enclose emotion is composed of an alternation of light and shadow.
The ORION D bollard is able to gracefully respond to the function of use, both in open spaces, pedestrian areas, cycle paths and residential areas, telling with style new emotions of light.

Si le design “est une manière naïve de se sentir un peu plus proche du mystère de la beauté", cette définition englobe tout le concept de notre collection ORION D.
De cette façon, nous pouvons nous aussi nous laisser envelopper par le pouvoir de la beauté.
Ayant confirmé que dans notre travail, faire de belles choses et bien les faire est un principe fondamental avant d'être un choix entrepreneurial ou une stratégie de marché.
Les lignes de la collection ORION D libèrent une émotion particulière crée par le jeu d’ombre et de lumière qui alternent et qui créent ainsi une perception toute particulière de la lumière.
La borne ORION D est ainsi capable d’habiller tous les espaces résidentiels, zones piétonnes ou pistes cyclables avec une lumière à la fois sécurisante et rassurante.
